GREED FOR MONEY BROUGHT ABOUT EUROPEAN WAR

Washington, Aug. 10.—Powers of North and South America already have agreed upon a definite plan for dealing with the Mexican problem, and when the pan-American conference is resumed in New York tomorrow the program will be formally ratified. This information came yesterday from Secretary Lansing, who, though he would not discuss details, said he was decidedly encouraged over the prospect.

Carranza official here said yesterday the Brazilian minister at Mexico City, the only diplomatic representative of the United States in Mexico, has been withdrawn by his government because Gen Carranza was prepared to expel him from the country as he did Senor Ortega, the Guatemalan minister.

The Brazilian minister reported to the state department yesterday that no reason had been given for the expulsion of Senor Ortega and that he himself intended to sail tomorrow from Vera Cruz on a French liner for the United States. It is believed in Washington that Carranza expelled the Guatemalan and was preparing to expel the Brazilian because of the participation of their countries in the pan-American conference in Washington for composing Mexican affairs.

The development is a very disturbing one for the success of the pan-American conference. Officials who were hoping Carranza would join in a peace conference with his adversaries and meet the efforts of the pan-American nations to settle the factional strife were much disappointed.

American naval commanders at Vera Cruz have been ordered to place a warship at the disposal of the two diplomats if they wish it. There are three gunboats in the vicinity, the Wheeling and Machias at Tampico, the Marietta at Progreso and the Sacramento on which the senior officer, Comdr. McNamee, has his flag, is at Vera Cruz.

Secretary Lansing said he was considering American representation in Mexico City in view of the departure of the Brazilian minister but he did not know what would be done. He assumed, however, that American diplomatic affairs would be in a sort of a state of quiescence, in Mexico City. The reasons for the Brazilian minister's visit to the United States at this time, the Secretary said, were unknown to him.

Con. Manahan Says World is Afflicted With Same Blight

LAST CHAUTAUQUA ADDRESS

Sufficient Pledges Secured to Guarantee Another Series of Entertainments Next Year.

Those in charge of the local Chautauqua and their equipment left Bennington early this morning for Sayville, N. J., where their first entertainment will be held Wednesday afternoon. During the evening program Monday a sufficient number of pledges were signed to make it possible for the Chautauqua to return in 1916. There is still lacking a number of guarantors who will probably be given in the course of a week by the local committee.

The closing programs were given Monday afternoon and evening before audiences of about 600 and 900 respectively. The former program was made up of a concert by the Strollers male quartette and a lecture by the Hon. James Manahan, congressman from Minnesota, and the latter entertainment consisted of another concert by the quartette and the presentation of Shakespeare's "Twelfth Night" by the College Players.

Both concerts by the original Strollers Quartet composed of vocal and instrumental music, readings, and Swiss hand-bell ringing were thoroughly enjoyed by the audience, especially the readings by Edward C. Farment, who showed marked ability in his impersonations. The Strollers have toured the United States and Canada for several years and were able to present to the local audience a program full of melody and entertainment.

The Hon. Joseph W. Folk, ex-governor of Missouri, who was scheduled to lecture Monday afternoon was detained in Washington at the last moment on official business, and sent Congressman James Manahan of Minnesota. Although disappointed at the absence of Mr. Folk, the audience had the pleasure of listening to an able and convincing address by Mr. Manahan upon his solution of the cause of the European war and his one criticism of the American people which might be the cause of future conflicts.

The speaker named his subject as "National Welfare" and opened his remarks with the statement, that, since all civilization is associated, the European war is our war as well as a war of foreign nations. There are grave crises impending in our country all the time and a strong feeling against the forces that make war possible. The cause of the present war is not found in the assassination of the Austrian archduke nor in racial hatred, nor in religious feeling but the responsibility for this terrible conflict lies with people, American people included, who have had, and still have for their moving purpose the consuming ambition to make money. England wants control of the sea, Russia wants Constantinople, and Germany wants colonial possessions.

GERMANS CAPTURE FORT, RUSSIANS LEAVE CITY

Teutons Tightening Lines to Drive Slavs Out of Poland

BAG OF PRISONERS SMALL

Large Quantities of Food-stuffs and Forage Fall Into Hands of Invaders.

Berlin, via London, Aug. 9.—The Germans have stormed and captured the fortress of Lomza.

Petrograd, Aug. 10.—The Russians have evacuated Vilna, according to the announcement of the war office today.

London, Aug. 10.—Starting in northwest Russia where the fortress of Kovno is closely pressed, down through Poland to a point below Warsaw and thence eastward across the Vistula and northward toward the Baltic, the Germans and Austrians, according to the official reports of Berlin and Vienna, are drawing more closely together the lines which threaten to envelop Poland entirely of the men of Grand Duke Nicholas' armies.

Field Marshal Von Hindenburg's troops to the north and northeast of Warsaw are steadily pressing east and southeast; a ring of besiegers has been forged around the fortress of Novo Gorkovsk, the last stronghold on the Vistula line remaining in Russian hands.

The bag of prisoners at Warsaw was small, Berlin declaring that only a few thousand of them were taken. Nor has the number captured by Archduke Joseph Ferdinand been large, Vienna asserting merely that the number of men captured by him "has been increased to eight thousand."

Although the Teutonic allies seemingly have not been successful as yet in entrapping any large section of the Russian grand duke's forces, according to the Overseas News Agency, they have obtained in their invasion of Poland a bountiful supply of food-stuffs for their men and forage for their horses.

GOETHALS QUILTS NOVEMBER 1

Believes That His Work on Canal is Completed

New York, Aug. 9.—The date of General George W. Goethals' resignation as governor of the Panama canal zone has been determined as November 1 in his formal resignation sent to Washington, according to an announcement made by him on his arrival today from Cristobal. General Goethals is surrendering his office because he believes his work at Panama is done, and the canal is operating satisfactorily at present. He has passed seven years in Panama. Although he will no longer be connected with the canal zone's affairs as governor, should his resignation be accepted, he said today he would retain his commission in the army.

Announcement of the date of his resignation was made at the conclusion of the last trip which General Goethals expects to make as governor from Cristobal to New York. General Goethals expected to leave New York after a few hours' stay here, for Washington. His wife and son accompanied him on the trip from Cristobal to this city. Mrs. Goethals will remain in New York during his absence in Washington.

It is understood General Goethals' presence in Washington is desired so that he may confer with authorities there regarding plans for national defense, especially with reference to the strength, disposition and housing of forces in the canal zone.

Carter is now a well-to-do business man in New York, and once in a while pitches for the Staten Island cricket club in the Amateur league, and he's still there.

The Great Cambridge Fair, August 23, 24, 25, 26, 27, 1915.

The first two days of this year's Fair will be of the greatest interest to firemen and their friends, the Northern New York Firemen's Association holding their annual convention here on the first day, and the firemen participating in hand engine contests and hose race contests and drills on the second day. It is expected that 10,000 firemen will be in line in the big parade that will go through the profusely decorated streets of the village of Cambridge on the latter day. All the contests and drills will be held in front of the Grand Stand at the fair grounds where all, who desire, can be comfort ably seated.

Each day W. A. LaHiff, the celebrated tenor, will sing with Doring's band; all the latest dances will be performed, the Aerial Mitchells will give their revolving ladder and aerial trapeze act, in which the woman is just as clever as the man; the Four Newsomes will produce their great springboard act; Millard Bros., the Troy boys, America's premier comedians on bicycles, will be one of the big features; the whole to be completed with the Australian Woodchopper act, a thrilling act that he may confer with authorities there regarding plans for national defense, especially with reference to the strength, disposition and housing of forces in the canal zone.

UNCLE SAM TO PLAY LONE HAND WITH GREAT BRITAIN

Co-operation of Sweden Not Desired By Administration

OVERTURES FLATLY REJECTED

Reported German Sympathies May Have Been One Reason for Refusal.

Washington, Aug. 10.—The United States will continue to act alone in representations to Great Britain regarding neutral trade. It was learned last night that negotiations begun by the Swedish legation at Washington to secure American co-operation in proposed concerted action of neutrals to protest against the British orders in council, insofar as they work hardship to neutral commerce, have brought no results.

The most recent Swedish proposal contemplated identical notes of protest by neutrals, flat rejection by the American state department having met a previous suggestion for a joint note. Negotiations are still in progress but have failed so far to develop a common ground upon which action could be based.

Some details of the Swedish position as to trade interference by Great Britain, it is said, are inconsistent with the contentions of the United States in exchanges with the London foreign office. Reports as to strong German sympathies in Sweden also are believed to have been considered by the state department, although the formal reasons given for refusal to join in the movement are largely technical.
